DISPLAY QUESTION

This action displays a question to the user and waits for the reply. The string specified in the action identifying a question is displayed together with the Yes, No and Cancel buttons.

Syntax

DISPLAY QUESTION

```
ArithmeticExpression()  
[  
  'MTITLE' <STRING_LITERAL>  
]  
[  
  'YESNAME' <STRING_LITERAL>  
]  
[  
  'NONAME' <STRING_LITERAL>  
]
```

where

1. ArithmeticOperation is the operation that produces a string (usually just a string literal).
2. MTITLE: optional title of the window
3. YESNAME: optional name of the “Yes” button (default is Yes)
4. NONAME: optional name of the No button (default is No)

Example

```
DISPLAY QUESTION 'Do you want to print out a receipt?' YESNAME 'I do' NONAME  
'I do not'
```

The reply of the user can be checked using the Reply attribute of the predefined object Question, for example:

```
IF Question.Reply = 'Yes' THEN ...
```
