This is the template for INHERITED known issues pages - add a tag to Issue: to allow this to show on the tagged page

## Loss Of LAN Connection

This is a spacer column

### Problem/Limitation Description

If the **Aware IM** Server is started when either LAN or Internet connection is up and then either LAN goes down or Internet is disconnected, the server goes down too

This is a spacer column

### Work Around

Start the **Aware IM** Server within the configuration that you intend to work with. For example, if you only use dial-up Internet connection occasionally make sure that you start the **Aware IM** Server first and then connect to the Internet. This way when you disconnect from the Internet **Aware IM** will continue to work properly.
