Use Of In With Complex Identifiers

<columns 100% 4% 48%>

DO NOT PLACE TEXT HERE

<newcolumn>

Problem/Limitation Description

IN expressions using complex identifier of the reference list are not supported if used in subqueries. For example, the following query is not supported:

```
FIND Client WHERE  (COUNT Account WHERE (Account IN Client.Carrier.Accounts) > 3)
```

Note that the following query is supported:

```
FIND Client WHERE (COUNT Account WHERE (Account IN Client.Accounts)>3)
```

<newcolumn>

Work Around

Avoid using such constructs in queries <newcolumn> </columns>
