Working with Business Space Versions 2

Working with Business Space Versions

Business objects, rules, processes and other elements of the system belong to a [business space](#). A business space may have a number of business space versions, each containing different versions of the elements that you configure. The following section explains the life cycle of a business space version and the steps required to create and edit the version.

- [Lifecycle of a Business Space Version](#)
- [Major and Minor Versions](#)
- [Loading Business Space Version](#)
- [Updating Business Space Version](#)
- [Checking Version Integrity](#)
- [Testing Business Space Version](#)
- [Publishing Business Space Version](#)
- [Working with a Business Space Version in a Multi-Developer Mode](#)
- [Deleting Business Space Version](#)
- [Viewing Properties and History of the Business Space Version](#)
- [Exporting Business Space Version](#)
- [Importing Business Space Version](#)
- [Refreshing Business Space Version](#)
