Implementing function library 2

[Programmers Reference](#), [IFunctionLibrary Interface](#)

Implementing function library

To implement a function library you need to write a class that implements the `IFunctionLibrary` interface. The implementation of the following methods must be provided:

- `calculate (String, Object [], INodeHelper)`
- `getAvailableFunctions ()`
- `getName () / IFunctionLibrary`
- `getRequiredFactPatterns (String, Collection)`
- `getTypeClass (String, Collection)`
- `hasFunction (String, int)`
- `toSQL (String, Collection, ISQLBuilderHelper)`
