Attribute length 2

[Glossary](#), [Index](#), [Business Object](#), [Attribute](#), [Text](#), [Format](#)

Attribute length

Attribute length applies only to [text attribtues](#). It specifies the maximum number of letters allowed for the attribute value. For example, the length for a customer name may be set to 100. When specifying the length the [Configurator](#) should use some sufficient but sensible number to avoid wasting space in the [data storage](#).
