getChannelSettingsEditor () 2

[Programmers Reference](#), [Methods](#), [IChannelType Interface](#), [IChannelType Interface Methods](#), [getchannelsettingseditor](#)

getChannelSettingsEditor ()

```
public String getChannelSettingsEditor ()
```

This method must return the fully qualified name of the component that will provide the user interface to edit the channel-specific properties (see also [0430_implementing_channel_settings_editor](#)). If there are no channel-specific properties that need to be specified by the user, `null` should be returned.
