getLoadedResources () ..... 2

[Programmers Reference](#), [Methods](#), [DataPresentationTemplate Class](#), [getLoadedResources](#)

## getLoadedResources ()

```
public BinaryResource [] getLoadedResources ()
```

This method retrieves any resources that the document may have that are stored outside of the document template file (for example, images, fonts etc).

### Parameters

none

### Returns

the external resources as the BinaryResource structures or null if the document template has no external resources.
