printFile () 2

[Programmers Reference](#), [Methods](#), [IDocumentEngine Interface](#), [IDocumentEngine Interface Methods](#), [printfile](#)

printFile ()

```
public void printFile (File fileToPrint)
throws DocumentException
```

This method is supposed to print the specified file. It is assumed that the provided file is of the format supported by the document type (presumably obtained by calling the [fillWithData](#) method).

Parameters

fileToPrint	document to print
-------------	-------------------

Throws

the `DocumentException` if an error occurs.
